

Instrumentation Technician Interview Questions

1. Give me an example of when you thought outside of the box. How did it help your employer?

2. Share an experience in which you successfully repaired or replaced a faulty component of a test setup or equipment.

3. Provide an example of a time when you successfully organized a diverse group of people to accomplish a task.

4. Share an experience you had in dealing with a difficult person and how you handled the situation.

5. Share an experience in which you successfully shared a difficult piece of information. (Make sure that the candidate has open lines of communication.)

6. Describe a time when you successfully serviced, repaired, calibrated, or tested a device that operates mainly by electronic principles.

7. Share an experience in which you oversaw the assembly, fabrication, construction, maintenance, or modification of equipment. How did you communicate to the staff what you wanted?

8. Tell me how you organize, plan, and prioritize your work.

9. Share an experience when you applied new technology or information in your job. How did it help your company?

10. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.
