

Chiropractic Neurologist Interview Questions

1. Walk me through how you evaluate the functioning of the neuromusculoskeletal system and the spine using systems of chiropractic diagnosis.

2. Describe methods you have found effective to diagnose health problems by reviewing patients' health and medical histories, questioning, observing, and examining patients and interpreting x-rays.

3. What is the most challenging part of advising patients about recommended courses of treatment? Share an example.

4. Describe a time when you successfully provided personal assistance to a coworker or patron.

5. Share an experience you had in dealing with a difficult person and how you handled the situation.

6. Share an experience in which you successfully shared a difficult piece of information. (Make sure that the candidate has open lines of communication.)

7. How do you stay fit in order to perform physical activities that are required in the workplace?

8. Tell me how you organize, plan, and prioritize your work.

9. What are some long-range objectives that you developed in your last job? What did you do to achieve them?

10. Share an experience when you applied new technology or information in your job. How did it help your company?
