

Carbon Brusher Assembler Interview Questions

1. Share an experience in which you've successfully learned how to handle a new piece of equipment?

2. What kind of experience do you have assembling electrical or electronic systems or support structures and installing components, units, subassemblies, wiring, or assembly casings, using rivets, bolts, soldering or micro-welding equipment?

3. What have you found to be the best way to read and interpret schematic drawings, diagrams, blueprints, specifications, work orders, or reports to determine materials requirements or assembly instructions? Share an example.

4. Tell me about a recent experience you've had working with your hands.

5. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

6. Share an experience in which your diligence of inspecting equipment, structures, or materials helped you identify a problem or the cause of a problem.

7. Tell me about the last time you monitored or reviewed information and detected a problem. How did you respond?

8. Share an experience you had in dealing with a difficult person and how you handled the situation.

9. Tell me how you inspect or test wiring installations, assemblies, or circuits for resistance factors or for operation and record results.

10. Share an experience when you applied new technology or information in your job. How did it help your company?
