

Forest Science Professor Interview Questions

1. Describe an experience in which you identified the educational needs of your students and successfully developed a way to teach/train them.

2. What have you found to be the best way to prepare and deliver lectures to undergraduate or graduate students on topics such as forest resource policy, forest pathology, and mapping?

3. Share an experience in which you successfully supervised teaching, internship, and/or research work. What methods made you successful?

4. Provide an example of a time when you successfully organized a diverse group of people to accomplish a task.

5. Share an experience you had in dealing with a difficult person and how you handled the situation.

6. Tell me how you organize, plan, and prioritize your work.

7. Share an experience when you applied new technology or information in your job. How did it help your company?

8. Give me an example of when you thought outside of the box. How did it help your employer?

9. Would you consider analyzing data or information a strength? How so?

10. Share an example of a time you had to gather information from multiple sources. How did you determine which information was relevant?
