

Electric Mule Driver Interview Questions

1. Share an experience in which you've successfully learned how to handle a new piece of equipment?
2. Tell me about a recent experience you've had working with your hands.
3. Describe methods you have found effective to inspect product load for accuracy and safely move it around the warehouse or facility to ensure timely and complete delivery.
4. How do you stay fit in order to perform physical activities that are required in the workplace?
5. Share an example of a time you had to gather information from multiple sources. How did you determine which information was relevant?
6. What kind of experience do you have moving levers or controls that operate lifting devices, such as forklifts, lift beams with swivel-hooks, hoists, or elevating platforms, to load, unload, transport, or stack material?
7. Name a time when you moved controls to drive gasoline- or electric-powered trucks, cars, or tractors and transport materials between loading, processing, and storage areas.
8. Share your approach to manually or mechanically load or unload materials from pallets, skids, platforms, cars, lifting devices, or other transport vehicles.
9. Share an experience you had in dealing with a difficult person and how you handled the situation.
10. Describe an experience in which you successfully controlled the operation of a difficult system. What made you successful?
