

General Internist Interview Questions

1. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

2. Provide an example of a time when you were able to demonstrate excellent listening skills. What was the situation and outcome?

3. What kind of experience do you have prescribing or administering medication, therapy, and other specialized medical care to treat or prevent illness, disease, or injury?

4. Describe methods you have found effective to manage and treat common health problems, such as infections, influenza and pneumonia, as well as serious, chronic, and complex illnesses, in adolescents, adults, and the elderly.

5. Walk me through how you would provide and manage long-term, comprehensive medical care, including diagnosis and nonsurgical treatment of diseases, for adult patients in an office or hospital.

6. What is the key to success when communicating with the public.

7. Share an experience you had in dealing with a difficult person and how you handled the situation.

8. Tell me how you organize, plan, and prioritize your work.

9. Tell me about the last time you monitored or reviewed information and detected a problem. How did you respond?

10. Share an example of a time you had to gather information from multiple sources. How did you determine which information was relevant?
