

Valve Maker Interview Questions

1. Tell me about a recent experience you've had working with your hands.
2. How do you stay fit in order to perform physical activities that are required in the workplace?
3. Share an experience in which your attention to detail and thoroughness had an impact on your last company.
4. Share an experience in which you've successfully learned how to handle a new piece of equipment?
5. Share an example of when you went above and beyond the "call of duty". (Look for answers that show the candidate is dependable.)
6. Share an experience in which you effectively inspected, operated, and/or tested completed products to ensure functioning, capabilities, and conformance to specifications.
7. Tell me about the last time you monitored or reviewed information and detected a problem. How did you respond?
8. Describe an experience in which you assembled and effective system of gears.
9. How do you balance cooperation with others and independent thinking? Share an example. (Try to determine if the candidate has a cooperative attitude or is otherwise good-natured.)
10. Share an experience in which you reworked and/or repaired damaged parts and assemblies.
