

## Manufacturing Process Technician Interview Questions

1. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

2. What is your approach to adhere to all applicable regulations, policies, and procedures for health, safety, and environmental compliance?

3. Describe an experience when you set up and operated production equipment in accordance with current good manufacturing practices and standard operating procedures.

4. Share an experience when you applied new technology or information in your job. How did it help your company?

5. Give me an example of when you thought outside of the box. How did it help your employer?

6. Describe a time when you successfully serviced, repaired, or tested a machine or device that operates mainly by mechanical principles.

7. Share an experience in which your diligence of inspecting equipment, structures, or materials helped you identify a problem or the cause of a problem.

8. Share an example of a time you had to gather information from multiple sources. How did you determine which information was relevant?

9. Share an experience in which your attention to detail and thoroughness had an impact on your last company.

10. Describe methods you have found effective to inspect finished products for quality and adherence to customer specifications.
