

Biomedical Technician Interview Questions

1. Share an experience when you applied new technology or information in your job. How did it help your company?

2. Share an experience in which you effectively tested and calibrated components and equipment. What methods made you successful?

3. Share an experience in which you successfully shared a difficult piece of information. (Make sure that the candidate has open lines of communication.)

4. Describe a time when you successfully serviced, repaired, calibrated, or tested a device that operates mainly by electronic principles.

5. Describe a time when you successfully serviced, repaired, or tested a machine or device that operates mainly by mechanical principles.

6. Share an experience in which you've successfully learned how to handle a new piece of equipment?

7. Tell me about a recent experience you've had working with your hands.

8. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

9. Share an experience in which your diligence of inspecting equipment, structures, or materials helped you identify a problem or the cause of a problem.

10. Tell me about the last time you monitored or reviewed information and detected a problem. How did you respond?
