

Well Surveying Engineer Interview Questions

1. Name a time when your advice to management led to an improvement in your company or otherwise helped your employer.

2. What factors do you consider when assessing costs and estimating the production capabilities and economic value of oil and gas wells, to evaluate the economic viability of potential drilling sites?

3. What have you found to be the best way to develop plans for oil and gas field drilling, and for product recovery and treatment? Share an example.

4. Provide an example of a time when you successfully organized a diverse group of people to accomplish a task.

5. Share an experience you had in dealing with a difficult person and how you handled the situation.

6. Tell me how you organize, plan, and prioritize your work.

7. Give me an example of when you thought outside of the box. How did it help your employer?

8. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

9. Share an effective approach to working with a large amount of information/data. How has your approach affected your company?

10. Share an example of a time you had to gather information from multiple sources. How did you determine which information was relevant?
