

Gas Fitter Interview Questions

1. Tell me about a recent experience you've had working with your hands.

2. Describe an experience when you performed rough-ins, repair and replaced fixtures and water heaters, and locate, repair, or removed leaking or broken pipes.

3. What have you found to be the best way to measure, cut, thread and assemble new pipe, placing the assembled pipe in hangers or other supports?

4. Give me an example of when you thought outside of the box. How did it help your employer?

5. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

6. Share an experience in which your diligence of inspecting equipment, structures, or materials helped you identify a problem or the cause of a problem.

7. Tell me about the last time you monitored or reviewed information and detected a problem. How did you respond?

8. Share an experience in which you've successfully learned how to handle a new piece of equipment?

9. How do you stay fit in order to perform physical activities that are required in the workplace?

10. What are some long-range objectives that you developed in your last job? What did you do to achieve them?
