

Dentist Interview Questions

1. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

2. Share an example when you successfully replaced missing teeth and associated oral structures with permanent fixtures, such as crowns and bridges, or removable fixtures, such as dentures.

3. Describe methods you have found useful to measure and take impressions of patients' jaws and teeth to determine the shape and size of dental prostheses, using face bows, dental articulators, recording devices, and other materials.

4. What is the key to success when communicating with the public.

5. Describe a time when you successfully provided personal assistance to a coworker or patron.

6. Share an experience you had in dealing with a difficult person and how you handled the situation.

7. Tell me how you organize, plan, and prioritize your work.

8. Share an experience when you applied new technology or information in your job. How did it help your company?

9. Give me an example of when you thought outside of the box. How did it help your employer?

10. Share an example of a time you had to gather information from multiple sources. How did you determine which information was relevant?
