

## Rod Finisher Interview Questions

|  |
|--|
| 1. Tell me about your qualifications for and your experience handling vehicles and/or mechanized equipment.  |
|  |
| 2. Describe methods you have found effective to monitor machine cycles and mill operation to detect jamming and to ensure that products conform to specifications. |
|  |
| 3. Walk me through how you would examine, inspect, and measure raw materials and finished products to verify conformance to specifications.                        |
|  |
| 4. Share an experience in which you've successfully learned how to handle a new piece of equipment?  |
|  |
| 5. Tell me about a recent experience you've had working with your hands.   |
|  |
| 6. Share an experience when you applied new technology or information in your job. How did it help your company?   |
|  |
| 7. Share an experience in which your diligence of inspecting equipment, structures, or materials helped you identify a problem or the cause of a problem.          |
|  |
| 8. Tell me about the last time you monitored or reviewed information and detected a problem. How did you respond?  |
|  |
| 9. Describe an experience in which you successfully controlled the operation of a difficult system. What made you successful?                                      |
|  |
| 10. Tell me how you organize, plan, and prioritize your work.  |
|  |
