

Framing Mechanic Interview Questions

1. Share an experience in which your diligence of inspecting equipment, structures, or materials helped you identify a problem or the cause of a problem.

2. Share an example when you effectively studied blueprints and diagrams to determine dimensions of structure or form to be constructed.

3. What kind of experience do you have cutting or sawing boards, timbers, or plywood to required size, using handsaw, power saw, or woodworking machine?

4. Share an experience in which you've successfully learned how to handle a new piece of equipment?

5. Tell me about a recent experience you've had working with your hands.

6. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

7. Tell me about your qualifications for and your experience handling vehicles and/or mechanized equipment.

8. Share an experience in which you oversaw the assembly, fabrication, construction, maintenance, or modification of equipment. How did you communicate to the staff what you wanted?

9. Tell me how you organize, plan, and prioritize your work.

10. Share an example of a time you had to gather information from multiple sources. How did you determine which information was relevant?
