

Production Support Manager Interview Questions

1. What kind of experience do you have directing technical aspects of newscasts and other productions, checking and switching between video sources, and taking responsibility for the on-air product, including camera shots and graphics?

2. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

3. What have you found to be the best way to supervise and assign duties to workers engaged in technical control and production of radio and television programs?

4. Share an experience you had in dealing with a difficult person and how you handled the situation.

5. Tell me how you organize, plan, and prioritize your work.

6. Share an experience when you applied new technology or information in your job. How did it help your company?

7. Give me an example of when you thought outside of the box. How did it help your employer?

8. Tell me about the last time you monitored or reviewed information and detected a problem. How did you respond?

9. Share an example of a time you had to gather information from multiple sources. How did you determine which information was relevant?

10. Provide an example of a time when you were able to demonstrate excellent listening skills. What was the situation and outcome?
