

## Transportation Modeler Interview Questions

1. Name a time when your advice to management led to an improvement in your company or otherwise helped your employer.

2. Share an example when you recommended transportation system improvements or projects, based on economic, population, land-use or traffic projections.

3. Describe methods you have found effective to review development plans for transportation system effects, infrastructure requirements, or compliance with applicable transportation regulations.

4. Tell me how you organize, plan, and prioritize your work.

5. What are some long-range objectives that you developed in your last job? What did you do to achieve them?

6. Give me an example of when you thought outside of the box. How did it help your employer?

7. Tell me about an experience in which you analyzed information and evaluated results to choose the best solution to a problem.

8. Would you consider analyzing data or information a strength? How so?

9. Share an example of a time you had to gather information from multiple sources. How did you determine which information was relevant?

10. Share an experience in which your ability to consider the costs or benefits of a potential action helped you choose the most appropriate action.
