Roll Forming Machine Operator Interview Questions

| 1. Tell me about your qualifications for and your experience handling vehicles and/or mechanized equpiment. |
|---|
| |
| 2. Describe methods you have found effective to monitor machine cycles and mill operation to detect jamming |
| and to ensure that products conform to specifications. |
| |
| 3. Walk me through how you would examine, inspect, and measure raw materials and finished products to |
| verify conformance to specifications. |
| |
| 4. Share an experience in which you've successfully learned how to handle a new piece of equipment? |
| |
| 5. Tell me about a recent experience you've had working with your hands. |
| |
| 6. Share an experience when you applied new technology or information in your job. How did it help your |
| company? |
| |
| 7. Share an experience in which your diligence of inspecting equipment, structures, or materials helped you |
| identify a problem or the cause of a problem. |
| |
| 8. Tell me about the last time you monitored or reviewed information and detected a problem. How did you |
| respond? |
| |
| 9. Describe an experience in which you successfully controlled the operation of a difficult system. What made |
| you successful? |
| |
| 10. Tell me how you organize, plan, and prioritize your work. |
| |
| 11. Share an experience in which you conducted a test of a product, service, or process and successfully |
| improved the quality or performance. |
| |
| 12. What have you found to be the best way to adjust and correct machine set-ups to reduce thicknesses, |
| reshape products, and eliminate product defects? |
| |
| 13. Share your approach to reading rolling orders, blueprints, and mill schedules to determine setup |
| specifications, work sequences, product dimensions, and installation procedures. |

Roll Forming Machine Operator Interview Questions

| 14. Name a time when you manipulated controls and observe dial indicators in order to monitor, adjust, and |
|---|
| regulate speeds of machine mechanisms. |
| |
| 15. What is the most challenging part of calculating draft space and roll speed for each mill stand in order to |
| plan rolling sequences and specified dimensions and tempers? |
| |
| 16. Tell me about the last time when you started operation of rolling and milling machines to flatten, temper, |
| form, and reduce sheet metal sections and to produce steel strips. |
| |
| 17. What factors do you consider when threading or feeding sheets or rods through rolling mechanisms, or |
| start and control mechanisms that automatically feed steel into rollers? |
| |
| 18. Share an experience in which your attention to detail and thoroughness had an impact on your last |
| company. |
| |
| 19. Share an example of when you went above and beyond the "call of duty". (Look for answers that show the |
| candidate is dependable.) |
| |
| 20. Describe an experience when you directed and trained other workers to change rolls, operate mill |
| equipment, remove coils and cobbles, and band and load material. |
| |
