Tool Maker Interview Questions

| 1. Share an experience in which you've successfully learned how to handle a new piece of equipment? |
|---|
| |
| 2. Tell me about a recent experience you've had working with your hands. |
| |
| 3. What kind of experience do you have verifying dimensions, alignments, and clearances of finished parts for |
| conformance to specifications, using measuring instruments such as calipers, gauge blocks, micrometers, and |
| dial indicators? |
| |
| 4. Walk me through how you would study blueprints, sketches, models, or specifications to plan sequences of |
| operations for fabricating tools, dies, or assemblies. |
| |
| 5. Share an experience when you applied new technology or information in your job. How did it help your |
| company? |
| |
| 6. Give me an example of when you thought outside of the box. How did it help your employer? |
| |
| 7. Tell me about an experience in which you analyzed information and evaluated results to choose the best |
| solution to a problem. |
| |
| 8. Share an example of a time you had to gather information from multiple sources. How did you determine |
| which information was relevant? |
| |
| 9. Share an experience in which your attention to detail and thoroughness had an impact on your last company. |
| |
| 10. Describe methods you have found effective to visualize and compute dimensions, sizes, shapes, and |
| tolerances of assemblies, based on specifications. |
| |
| 11. What kind of experience do you have setting up and operating conventional or computer numerically |
| controlled machine tools such as lathes, milling machines, and grinders to cut, bore, grind, or otherwise shape |
| parts to prescribed dimensions and finishes? |
| |
| 12. Tell me about a time when you developed your own way of doing things or were self-motivated to finish |
| an important task. |

Tool Maker Interview Questions

| 13. How do you balance cooperation with others and independent thinking? Share an example. (Try to |
|---|
| determine if the candidate has a cooperative attitude or is otherwise good-natured.) |
| |
| 14. What is the most challenging part of conducting test runs with completed tools or dies to ensure that parts |
| meet specifications, making adjustments as necessary? |
| |
| 15. Name a time when your creativity or alternative thinking solved a problem in your workplace. |
| |
| 16. What have you found to be the best way to smooth and polish flat and contoured surfaces of parts or tools, |
| using scrapers, abrasive stones, files, emery cloths, or power grinders? |
| |
| 17. Share your effective approach to measure, mark, and scribe metal or plastic stock to lay out machining, |
| using instruments such as protractors, micrometers, scribes, and rulers. |
| |
| 18. Name a time when you developed and designed new tools and dies, using computer-aided design software. |
| |
| 19. Share an experience you had in dealing with a difficult person and how you handled the situation. |
| |
| 20. Describe an experience in which you successfully controlled the operation of a difficult system. What |
| made you successful? |
| |
