

## Dragline Oiler Interview Questions

1. Tell me about your qualifications for and your experience handling vehicles and/or mechanized equipment.
2. How familiar are you with digging plans, machine capabilities and limitations, and with efficient and safe digging procedures in a given application?
3. What is the most challenging part of observing hand signals, grade stakes, or other markings when operating machines so that work can be performed to specifications?
4. What kind of experience do you have operating machinery to perform activities such as backfilling excavations, vibrating or breaking rock or concrete, or making winter roads?
5. Share an experience in which you've successfully learned how to handle a new piece of equipment?
6. Tell me about a recent experience you've had working with your hands.
7. Tell me about the last time you monitored or reviewed information and detected a problem. How did you respond?
8. Describe an experience in which you successfully controlled the operation of a difficult system. What made you successful?
9. Share an experience in which your diligence of inspecting equipment, structures, or materials helped you identify a problem or the cause of a problem.
10. Tell me how you organize, plan, and prioritize your work.
11. Share an example of when you went above and beyond the "call of duty". (Look for answers that show the candidate is dependable.)
12. Share an experience you had in dealing with a difficult person and how you handled the situation.
13. Share an experience when you applied new technology or information in your job. How did it help your company?

## Dragline Oiler Interview Questions

14. Walk me through how you would measure and verify levels of rock or gravel, bases, or other excavated material.

15. Describe a time when you successfully serviced, repaired, or tested a machine or device that operates mainly by mechanical principles.

16. How do you balance cooperation with others and independent thinking? Share an example. (Try to determine if the candidate has a cooperative attitude or is otherwise good-natured.)

17. Tell me about a time when you developed your own way of doing things or were self-motivated to finish an important task.

18. Share a time when you willingly took on additional responsibilities or challenges. How did you successfully meet all of the demands of these responsibilities? (Make sure the candidate is a self-starter and can demonstrate some initiative.)

19. Share an experience in which you successfully coordinated with others. How about a coordination effort that was not as successful?

20. What have you found to be the best way to direct ground workers engaged in activities such as moving stakes or markers, or changing positions of towers?

21. Provide a time when you worked in a rapidly evolving workplace. How did you deal with the change? (Make sure the candidate is flexible.)

22. Provide a time when you dealt calmly and effectively with a high-stress situation.

23. Tell me how you direct workers engaged in placing blocks or outriggers to prevent capsizing of machines when lifting heavy loads. Share an example.

24. What have you found to be the best way to monitor the performance of your work and/or the work of others? Share a time when you had to take corrective action.

25. Provide an example of when you were persistent in the face of obstacles.

## Dragline Oiler Interview Questions

26. Share an example of a time you had to gather information from multiple sources. How did you determine which information was relevant?

27. Name a time when your patience was tested. How did you keep your emotions in check?

28. Name a time when your creativity or alternative thinking solved a problem in your workplace.

29. Share an experience in which your willingness to lead or offer an opinion helped your company.

30. Give me an example of when you thought outside of the box. How did it help your employer?
